

THUNDERSTRUCK: AFTER THE STORM – OUR WINNERS

JUNE 15TH, 2015 · 1 COMMENT ·

The first annual Thunderstruck Startup Competition by [Thunderbolt Studios](#) has come to a close last Friday with the Thunderstruck Private Tech Summit in Santa Monica. Thunderstruck was a rousing success for us with over 90 entries from around the world, and our expert panel of judges were floored with our top 10 finalist. While we view every entrant and finalist as a future titan of tech, we sadly couldn't give everyone this amazing, once in a lifetime opportunity.

To reiterate, all of our winners will receive:

Access to a year-long startup training camp from [Expert Dojo](#)

Full legal startup services from [Axis Legal Counsel](#)

PR Consultation Services from [PMBC Group Los Angeles](#)

A press mention in [Huffington Post](#)

And the opportunity to work with [Thunderbolt Studios](#) to bring these application ideas to life.

Our judges deliberating

Each winning application proved to be a combination of inventive, creative, and thoughtful, and while we saw this all of our finalist, our judges recognized this winning combination in more than we originally planned. That's right, in a shocking twist, our judges declared **four** Thunderstruck winners as opposed to the original three. We saw some brilliant ideas from our [ten finalist](#) and we were honored to be able to give this opportunity to more people than originally planned.

Without further ado, our winners are:

TAKSI by *Sefa Hazir*

LegalTap by *Natacha Gaymer-Jones*

GozAround Inc. by *Ben Block*

Signalfy by *Kara Drake*

Ben Block, creator of GozAround Inc. and one of the winners of the Thunderstruck Startup Competition 2015

We welcome each winner into the Thunderbolt family, and we look forward to seeing some amazing leaps and bounds from them in the upcoming months.

We at [Digital90210](#) would also like to reach out to our other finalist and those who entered: We saw greatness shine through in this competition, and we would like to

thank all who participated. We hope that you'll keep your eyes open for further opportunities brought to you by Thunderbolt.

Make sure you come back on Wednesday where we'll have a play-by-play of the Private Tech Summit.
